

SLOTTED ANGLE SHELVING

Dexion Slotted Angle is one of the most comprehensive and versatile construction systems of its kind. A wide range of angle sizes and useful accessories means that you can construct all kinds of factory, workshop and warehouse equipment. The range of Slotted Angle sizes enables you to design and build units and structures to meet exact specifications for size and strength.

Assembly is quick and simple. The framework is assembled by bolting together lengths of angle; accessories are fitted just as easily. The final unit can be readily modified – or completely dismantled and the components reused.

Length (L-R)	Depths Available (F-B)	Heights Available
914mm	305mm 381mm 457mm 610mm 762mm 914mm	1829mm 2134mm 2438mm 3048mm
